

### **REMARKS**

The following issues are outstanding in the pending application:

- The abstract is objected to;
- The specification is objected to;
- Claims 20-38 are rejected under 35 USC 112;
- Claims 20-21 and 34-38 are rejected under 35 USC 102; and
- Claims 22-33 are allowable if rewritten to overcome the Section 112 rejections and to include the base claim.

#### **Claims**

In order to more clearly define the subject matter of the invention, claim 22 has been cancelled and its subject matter has been added to independent claim 20. Claims 34-38 have been cancelled. Claims 20-33 are pending in this application.

#### **Abstract**

The abstract is objected to because it includes the phrase "Figure 1". A substitute abstract is being submitted in which the phrase "Figure 1" and the reference numbers have been deleted. No new matter has been added as a result of this amendment.

#### **Specification**

The specification is objected to because it does not contain section headings. A substitute specification is being submitted with this response in which paragraph numbering has replaced the line numbering and the section headings have been inserted. Also the priority information has been added under the "Cross-Reference to Related Applications" section. No new matter has been added as a result of these amendments. The disclosure is also objected to because of an informality on page 15, lines 37-38 of the original specification. This correction has been made to paragraph [0061] which is shown in the AMENDMENTS TO SPECIFICATION section of this response.

35 USC § 112

Claims 20-38 have been rejected under 35 USC 112, second paragraph as being indefinite. The Examiner states that claim 20, line 5 recites the limitation "the antenna" which has insufficient antecedent basis. The limitation has been amended to recite "the external antenna" for which there is antecedent basis in line 3 of claim 1. The limitation of "the mobile radio" in line 10 of claim 20 has been amended to recite "a mobile radio". In line 19, claim 20, the term "intended" has been deleted. Claims 34 and 37 have been cancelled, thus rendering the rejection of these claims moot. Applicant respectfully submits that as a result of these amendments the 35 USC 112 rejections have been overcome.

35 USC § 102

Claims 20-21 and 34-38 have been rejected under 35 USC 102(b) as being anticipated by U.S. Pat. No. 5,668,561 to Perrotta et al. Claims 22-33 have been found to be allowable. The subject matter of dependent claim 22 has been added to independent claim 20, thus rendering this rejection moot.
